The troops taken down by Gov. Gerry to the Petawatamie and the Marie de Crgnet, are still proving in that direction, and Gov. Geory is at present there with them. I mentioned in my last that four Free State prisoners, taken from the seighborhood of Ottawa Creek, had been brought ep. I sace learn that they have got a number more of prisoners, and that they are Free-State men. Shou'd they happen to take any Pro-S avery men, the Pre-Siavery Courts would make it smooth and easy salong through for them.

Yesterday Deputy-Marshal Faim came down to Lawrence and attempted to arrest Capt. Walker, The captain, you are aware, has charge of his company of militia here, and is neither in a position to conceal himself or run away. Among other inducements to enroll this melitic company, it is stated that Gov. Geary gave assurance that the officers and men should be free from such arrest. The First Lieutenant of this militia company, Mr. Harvey (the Col. Harvey of September notoriety) was also wanted by the accommodating Deputy Marshal. Capt. Walker told Faim that, under the circumstances, he could not go; but added that if he would bring Gov. Geary, or if he sent his orders for his (Walker's) arrest, that he would submit. Faim, as is usual with him, undertook the persuasive, the bandishmen's, of his elequence having no effect. He then promised to return to-day with some drag ous, and make the arrests. The dragoons have been ordered to assist all these officers in making arrests, and they act for the courts, not the Governor, That Gev. Geary has promise! these persons exemption from such arrest, there can be lattle doubt. A doubt may be raised, however, as to bow far he had any right to do so. Again, he is not here at present, but is in the south part of the Territory, hunting Border Ruffia is and cat hing Free State men. He may be back to-morrow, or not for a week; and meanwhile, if the Marshall intends to proceed with what he has undertaken, a very pretty fuss may be again got up. As Donaldson and his satellites act in the hands of the Border Ruffians, there can be little doubt but this is a deliberate and premeditated scheme. This same Faim has been the bird of evil omen that has creaked at the inauguration of more that, one piece of rascality. Indeed, I can see the evidences of further mischief brewing, although it is impossible to conjecture whether is will assume a warlike aspect, or be limited, at present, to legal persecution. It is amusing to bear the Pro-Slavery men talk. They have been doing violence to their feelings, "holding off" for fear that their actions might endanger Bachanan's election, but now to report can go from the Territory but will be too late. to effect it. They therefore propose to resume the offensive by systematic arrests and legal persecution. It is stated that leading Pre-Slavery men have made, and are making out lists of Free-State men who are to be arrested. Six hundred names are reported to be on these lists already. Every Free-State min whose head has been seen above the wild current of Kansas politics, or who may have been under arms for his own defense or that of the community in which he lives, is to be arrested. Intimidated by this talk and these threats, some talk of leaving the Territory, which would be exactly what these ruffians want. The idea that the Pro-Slavery men have been "doing violence to their feelings" secently, may look odd enough, and yet they think so. They have had at least one hundred Free-State prisoners for six weeks past, whom they have treated inhumanly; they have been allowed to assert and hold ruffian sway at every point on the Missouri River, and Free-State men have there been placed under taloo; Northern emigrants have been robbed, made prisoners and insulted on their extrance to the Territory. These are pretty fair specimens of the moderate, "holding off" policy, and if this mild despotism is to be superseded by a more active form of Border Ruffianism, you may have a dim appreciation of what is in store for us. The fact is, the enterprising and clastic spirit of the Free State settlers improves every moment of the mutilated time allotted to them for improvements. It is but a few weeks since a Missouri invasion threstered destruction and called people from their homes, and these few weeks have been improved. Houses have been springing up rapidly, and improvements on claims carried forward. Every one of these indications of taking deeper root, is watched by the Pro-Slavery men with the most rewengeful feelings. Every Free-State emigrant that erosses the Northern frontier is regarded as another obstacle that must be removed, ere the institution can be safely planted. Although they have had everything their own way, the Border Rushans are getting tired of quiet in Kansas.

The Court at Lecempton has at last succeeded in making a conviction. A man named Henry has been convicted of manslaughter, or, rather, an assault with intept to kid. This is the first fruits out of the hundred, and merely result from proving that be was with Harvey's party in the skirmishes at Hickory Point (north). The "chain-and-buil" theory of the Bogus Legislature will now have an illustration from life. An American freeman, for defending his home and rights from invasion, will wear the badge given by despots to their rebellions serfs. The Court goes slowly on with its work, end it is more than likely that many others may share the same fate. It is, indeed, necessary that the sting of legal power be felt, if it is to be the means of driving the Free State settlers from the Territory.

The Convention at Big Springs assembled on Tuesday. Some two hundred persons, as delegates, were present from different parts of the Territory, P. C. Schuyler, esq., was chosen President, and Messrs. Wm. Hutchinson and Sabize Secretaries.

After a little discussive speaking on the necessity of having a delegate to represent us, so long as we are kept in the situation of a Territory, an informal vote was taken to see who should be the candidate. The following was the result of the first informal vote:

An effort was then made to cancus, but a peremptory call was made for a formal ballot. Win chell rose and said he withdrew in favor of Reeder. Mr. Perry was authorised to withdraw Pomery in favor of Reeder; but Gen. Pomeroy rose to correct and said he withdrew in favor of no one leaving the delegation to vote for who they pleased. A formal vote was then had with the following result:

Andrew H. Reeder .... 108 | Marcus Parrot ..... P. C Schuyler..... Andrew II. Reeder was then nominated. Committees were appointed to prepare the mode of election. It was agreed that Congress should be

nomerialised as to the fraudulent nature of Whi . field's election, and also that Andrew H. Ressler was the choice of the people of Kansas. This me mer al is to be carried into every election district and thus receive the signatures of voters.

resolutions-the first indersing the course taken hs Andrew H. Reeder, the second severely condemosters of the enteer of Gov. Geary. This second resolution it was deemed the better policy to suppress. The third resolution asserted the vitality of the Free-State party, and its determination stil to stand on the same platforms and maintain the same principles. Such was all the important bus ness transacted by the Convention. The cancass of the Territory will cost at least six hundred

Mr. C. had first been introduced by Mr. Sharlock to the wife of the letter, and he took frequent occasions to poison the mind of Mrs. S against her hasband, by telling her states or his infidelity to her, and striving to understine her virtue.
